Subject: Closing of the at-grade railroad crossings at Park Street and Grove Street

Summary Background:

The City of Ypsilanti has been attempting to secure inter-city rail service since said service was eliminated by Amtrak in 1984.

In December of 2015, after decades of saying "no", MDOT officially notified the City that they would support re-establishing Amtrak service for the City of Ypsilanti in Depot Town if the city met three criteria. The three criteria are as follows:

1. Close the at-grade railroad crossing at Grove Street
2. Close the at-grade railroad crossing at Park Street
3. Building a platform, approved by all affected entities in Depot Town that will accommodate train service.

On May 2, 2016, the City Manager provided the members of city council with an executive summary including several attachments in support of the closing of the at-grade railroad crossings at Grove Street and Park Street.

On Monday, May 9, 2016, the City Manager provided the members of city council with an Addendum to the Executive Summary provided previously in support of the closing of the at-grade railroad crossings at Grove Street and Park Street.

In order for the city to meet two of the three criteria required by MDOT to secure rail service for the city, the attached resolution must be passed by city council. Please see attached Traffic Control Order 2016-04. I am strongly urging city council support for the passage of the resolution No. 2016-105 so this process can continue to move forward.

TRAFFIC CONTROL ORDER

DATE: 12 May 2016

ORDER NO: 2016-04

LOCATION: North Park Street and North Grove Street at the railroad crossings.

ORDER: Traffic, including pedestrian traffic, is prohibited from crossing the railroad right-of-way on North Grove Street, between the 100 and 200 blocks, and North Park Street, midway through the 200 block.

REASON: In support of Council resolution 2016-105

The City of Ypsilanti has surveyed railroad crossings within the city with respect to the safety of said crossings, and finds that it is in the best interest of the health, safety, and welfare of the inhabitants of the City of Ypsilanti to close the aforementioned at-grade rail crossings.

Additionally, if the City acts to close said crossings prior to July 1, 2016; the Michigan Department of Transportation has assured the City of certain funds, conditioned upon the completion of the aforementioned closings that will more than offset the cost to perform the closings.

NOTICE OF ADOPTED ORDINANCE
CITY OF YPSILANTI
Ordinance No. 1270

An Ordinance to provide for a service charge in lieu of taxes for a housing project for low income persons and families to be financed with an Authority-aided Mortgage Loan or an advance or grant from the Authority pursuant to the provisions of the State Housing Development Authority Act of 1966 (1966 PA 346, as amended; MCL 125.1401, et seq) (the "Act").

THE CITY OF YPSILANTI ORDAINS:

SECTION 1. This Ordinance shall be known and cited as the "Ypsilanti Tax Exemption Ordinance-Riverwalk Commons."

SECTION 2. Preamble.

It is acknowledged that it is a proper public purpose of the State of Michigan and its political subdivisions to provide housing for its low income persons and families and to encourage the development of such housing by providing for a service charge in lieu of property taxes in accordance with the Act. The City is authorized by this Act to establish or change the service charge to be paid in lieu of taxes by any or all classes of housing exempt from taxation under this Act at any amount it chooses, not to exceed the taxes that would be paid but for this Act. It is further acknowledged that such housing for low income persons and families is a public necessity, and as the City will be benefited and improved by such housing, the encouragement of the same by providing real estate tax exemption for such housing is a valid public purpose. It is further acknowledged that the continuance of the provisions of this Ordinance for tax exemption and the service charge in lieu of all ad valorem taxes during the period contemplated in this Ordinance are essential to the determination of economic feasibility of the housing projects that is constructed or rehabilitated with financing extended in reliance on such tax exemption.

The City acknowledges that the Sponsor (as defined below) has offered, subject to receipt of a Mortgage Loan from the Michigan State Housing Development Authority, to construct, own and operate a housing project identified as Riverwalk Commons on certain property located at the future intersection of River Street and Michigan Avenue in the City of Ypsilanti, County of Washtenaw, State of Michigan, and legally described as (the "Project"):

A 3.60 ACRE PARCEL IN THE NE 1/4 OF SECTION 9, OF CITY OF

The Project will serve low income persons and families, and that the Sponsor has offered to pay the City on account of this housing project an annual service charge for public services in lieu of all ad valorem property taxes.

SECTION 3. Definitions.

A. Authority means the Michigan State Housing Development Authority.

B. Annual Shelter Rent means the total collections during an agreed annual period from or paid on behalf of all occupants of a housing project representing rent or occupancy charges, exclusive of Utilities.

C. Low Income Persons and Families means persons and families eligible to move into a housing project.

D. Mortgage Loan means a loan or grant made or to be made by the Authority to the Sponsor for the construction, rehabilitation, acquisition and/or permanent financing of the housing project, and secured by a mortgage on the housing project.

E. Sponsor means Herman & Kittle Properties, Inc. and any entity that receives or assumes a Mortgage Loan.

F. Utilities means charges for gas, electric, water, sanitary sewer and other utilities furnished to the occupants that are paid by the housing project. Phone, cable, internet, and television services are specifically not considered utilities.

SECTION 4. Class of Housing Projects.

It is determined that the class of housing projects to which the tax exemption shall apply and for which a service charge shall be paid in lieu of such taxes shall be housing projects for Low Income Persons and Families that are financed with a Mortgage Loan by the Authority. It is further determined that Riverwalk Commons is of this class.

SECTION 5. Establishment of Annual Service Charge.

The housing project identified as Riverwalk Commons and the property on which it will be located is subject to the Water Street Redevelopment Area Brownfield Plan, approved by the City of Ypsilanti City Council on December 16, 2014 with final adoption by the Washtenaw County Board of Commissioners on February 18, 2015. As authorized by the Brownfield Redevelopment Financing Act, P.A. 381 of the State of Michigan, as amended, and under the approved Brownfield Plan referenced above, an Act 381 Work Plan will be developed jointly between the City of Ypsilanti, the Sponsor, and the Washtenaw County Brownfield Authority, which will include all eligible brownfield activities to be reimbursed to the Sponsor. In addition, the Act 381 Work Plan will specify the total amount of Administrative Fees and Local Site Revolving Remediation Fund deposits to be paid to the Washtenaw County Brownfield Authority. This Act 381 Work Plan will then be approved by the State of Michigan. Following the completion of the reimbursement of all certified eligible brownfield expenses to the Sponsor by the Washtenaw County Brownfield Authority, and payment of any and all Administrative Fees and Local Site Revolving Remediation Fund deposits to the Washtenaw County Brownfield Authority, as specified in the above-referenced and approved Act 381 Work Plan, the Project shall be exempt from all ad valorem property taxes. The City acknowledges that the Sponsor and the Authority have established the economic feasibility of the housing project in reliance upon the enactment and continuing effect of this Ordinance, and the qualification of the housing project for exemption from all ad valorem property taxes and a payment in lieu of taxes as established in this Ordinance. Therefore, in consideration of the Sponsor's offer to construct and operate the housing project, the City agrees to accept payment of an annual service charge for public services in lieu of all ad valorem property taxes. Subject to receipt of a Mortgage Loan, the annual service charge shall be equal to ten percent (10%) of the Annual Shelter Rents actually collected by the housing project during each operating year.

SECTION 6. Contractual Effect of Ordinance.

Notwithstanding the provisions of section 15(a)(5) of the Act to the contrary, a contract between the City and the Sponsor with the Authority as third party beneficiary under the contract, to provide tax exemption and accept payments in lieu of taxes, as previously described, is effectuated by enactment of this Ordinance.

SECTION 7. Limitation on the Payment of Annual Service Charge.

Notwithstanding Section 5, the service charge to be paid each year in lieu of taxes for the part of the housing project that is tax exempt but which is occupied by other than low income persons or families shall be equal to the full amount of the taxes which would be paid on that portion of the housing project if the housing project were not tax exempt.

Additionally, it is anticipated that a portion of the Project will be commercial space. This portion is not tax-exempt. This non-exempt portion of the Project may receive a separate tax identification number that will be different than that portion that is exempt. This ordinance will only apply to that portion of the Project that is exempt, and will not apply to that portion of the Project that is not tax-exempt.

SECTION 8. Payment of Service Charge.

The annual service charge in lieu of taxes as determined under this Ordinance shall be payable in the same manner as general property taxes are payable to the City and distributed to the several units levying the general property tax in the same proportion as prevailed with the general property tax in the previous calendar year. The annual payment for each operating year shall be paid on or before April 15th of the following year. Collection procedures shall be in accordance with the provisions of the General Property Tax Act (1893 PA 206, as amended; MCL 211.1, et seq).

SECTION 9. Duration.

This Ordinance shall remain in effect and shall not terminate so long as a Mortgage Loan remains outstanding and unpaid and the housing project remains subject to income and rent restrictions under the Low Income Housing Tax Credit Program or HOME Investments Partnership Program. The exemption from all ad valorem property taxes established by this Ordinance shall terminate upon the re-financing or payoff of the Authority mortgage loan(s) or upon the sale of the Development.

SECTION 10. Severability.

The various sections and provisions of this Ordinance shall be deemed to be severable, and should any section or provision of this Ordinance be declared by any court of competent jurisdiction to be unconstitutional or invalid the same shall not affect the validity of this Ordinance as a whole or any section or provision of this Ordinance, other than the section or provision so declared to be unconstitutional or invalid.

SECTION 11. Inconsistent Ordinances.

All ordinances, resolutions, or parts of ordinances or resolutions inconsistent or in conflict with the provisions of this Ordinance are repealed to the extent of such inconsistency or conflict.

SECTION 12. Copies to be available

Copies of the Ordinance are available at the office of the City Clerk for inspection by, and distribution to, the public during normal office hours.

Michigan Senate Threatens to End Net Metering

(https:.

There is a bill pending in the State Senate that threatens the livelihood of many of our members. SB438 is currently assigned to the Senate Energy and Technology Committee. Hearings were held last week and continue this week.

Download Michigan SB438 (//images/pdf_files/pdf_files/SB438_S2.pdf)

The worst part of this bill is the section on "Distributed Generation" (the term that is replacing net metering). The net result of the language that appears on page 77 is that a customer must sell all power generated to the utility at essentially the wholesale rate of around 4 cents/kWh and buy it back at the retail rate, which is around 14 cents/kWh. This impacts the profitability of a solar system so much that few would choose to install a system.

John Freeman, one of our board members, has presented testimony at one of the hearings and delivered a letter he drafted and I signed as president of GLREA. What can be done now is for all those who are able to send a letter to one or all of the Senate Committee members making one or more of the following points:

1. The current net metering system is working well in Michigan. Why change it? The entire section of the bill titled Distributed Generation (which begins on page 71 and goes through page 80) should be

deleted from Senate Bill 438.

2. The bill requires sale of all solar power generated to the utility for the wholesale price of around 4 cents/kWh and the solar customer must then buy the power back at the retail rate around 14 cents/kWh. This results in a return on investment so low that almost no one will install a solar system.
3. It is very dubious whether non-solar utility customers are subsidizing solar owners (as the utilities claim). The solar power is put on the grid at a time of day when demand is very strong especially in summer. The power put on the grid goes to the next door neighbor and has almost no distribution cost attached to it. If the utility claim regarding cross-subsidization has any truth to it, a study should be done by the MPSC to establish what the subsidization amount is.
4. Changing the net metering law will kill a fledgling solar industry in Michigan which provides jobs and purchases of materials from Michigan suppliers. The expressed purpose of the bill is to encourage alternative forms of energy, and this change to net metering does just the opposite. It discourages solar investment.
5. This bill is an attempt by the utilities to kill competition from on-site generation and is designed to accomplish that goal.

A list of the members of the Senate Energy and Technology Committee is below. Their addresses are all the same:

P.O. Box 30036, Lansing, MI 48909-7536.

It would also be a good idea for you to call or email your state senator. You can find your senator at this source: www.senate.michigan.gov (<http://www.senate.michigan.gov>) then click the "senators" tab

Steven Bieda (<http://www.senate.mi.gov/bieda>) (D) 9th District

Please take some form of action to defeat this bill. Senators are most influenced by letters, secondly by emails and calls. Everyone who acts has some impact.
